

See what the professional and unbiased journalists of the West will do for few dollars more!!!

Watch the two YouTube videos on a media conference held at UN Headquarters, New York on 6th Sep. The first video shows the segment that one western journalist has doctored in his story, the second video shows the unedited version of the same scene.

Matthew Russell LEE of Inner City Press has deliberately edited the answer given to a question by General Shavendra Silva out of context as to show that he has accepted the fact that Army had shelled hospitals during the Humanitarian Mission.

The videos show the degeneration of the Western media due to unscrupulous journalists. This type of puppet journalists uses their privilege positions to mislead the world at the behest of various lobbying group for their greed for money.
